December 11, 2019

Dear Parents, Guardians and Staff;

The Board of Education Board approved an adjustment to the calendar to change February 19, 2020 from a vacation day to a student school day. I made this recommendation after the loss of a school days in November for power outages and then in December for weather closures.

In the event that you have plans that preclude your child from attending school on the 19th, please let your child’s school office know.

As of today, the last day of school is Tuesday, June 16. This is pending future school closures and is subject to change.

Sincerely,

Brian S. Reas
Superintendent of Schools
